### Progress

TASK	Progress	Note
MODEL		
Implement Event Class	Not need	PHP's variable have properties like what we want.
Implement List Class	Not need	PHP's variable have properties like what we want.
Implement EventService Class	Complete	Store in : MVC\models\eventservice.php
Implementant ListService Class	Usable	Store in : MVC\models\listservice.php Problem : Not good search algorithm.
Implement User Class	Complete	Store in : <ul style="list-style-type: none"><li>• MVC\models\authen.php</li><li>• MVC\models\encryption.php</li></ul>
Implement Admin Class	Usable	Store in : MVC\models\admin.php Problem : Can only delete content in database.
Build Unit Test	0%	Problem : Some system take time more than we think. Solution : Postpone
CONTROLLER		
Connect Event List Interface with List Service	Complete	Store in : MVC\controllers\homepage.php
Connect Event Viewer with Event Class	Complete	Store in : MVC\controllers\show.php
Connect Post Form with Event Collector	Usable	Store in : MVC\controllers\post.php Problem : <ul style="list-style-type: none"><li>• Not have build-in poster.</li><li>• Not have editing event.</li></ul>
Build Search and Sort System	Complete	Store in : MVC\controllers\fulllist.php
Build Sign Up System	Complete	Store in : MVC\controllers\register.php
Build Sign In&Out System	Complete	Store in : MVC\controllers\login.php

Connect User Panel with User Class	Complete	Store in : MVC\ controllers\ homepage.php
Connect Moderator Interface with Admin Class	Complete	Store in : MVC\ controllers\ admin.php
VIEW		
Build Event List Interface	Usable	Store in : <ul style="list-style-type: none"> <li>MVC\views\ eventlist.php</li> <li>MVC\views\ fulleventlist.php</li> </ul> Problem : Need some decorating.
Build Event Viewer	Usable	Store in : MVC\views\ eventviewer.php Problem : Need some decorating
Build Post Form	Usable	Store in : <ul style="list-style-type: none"> <li>MVC\views\ posting.php</li> <li>MVC\views\ uploading.php</li> </ul> Problem : Need some decorating.
Build User Panel	Usable	Store in : <ul style="list-style-type: none"> <li>MVC\views\ loginpanel.php</li> <li>MVC\views\ register.php</li> <li>MVC\views\ userpanel.php</li> </ul> Problem : Need some decorating.
Build Moderator Interface	Usable	Store in : <ul style="list-style-type: none"> <li>MVC\views\ adminviewer1.php</li> <li>MVC\views\ adminviewer2.php</li> </ul> Problem : Need some decorating.
Other		
Build & Set up VM on Azure	Complete	Acess via domain : kmitl-bbs.cloudapp.net
Install All Program on VM	Complete	Acess via domain : kmitl-bbs.cloudapp.net
Build Integration Test	0%	Problem : Some system take time more than we think. Solution : Postpone
Test both unit and Integration	0%	Problem : Some system take time more than we think. Solution : Postpone
